

Welcome to Grand Vaccination Day, Saturday 20 November

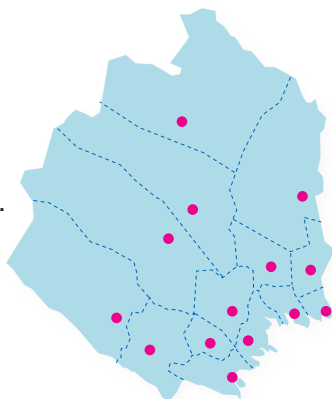

You who have not yet been vaccinated against covid-19 can take the opportunity now. On Saturday 20 November we are holding Open Day with drop-in vaccinations all over Norrbotten. This applies to you who are aged 12 and over and want to take your first dose (ages 12-15 accompanied by a parent). You can also have dose 2 on this day, but remember it must be at least four weeks since dose 1. Vaccination against covid-19 is free of charge. Bring a valid ID.

Inform and help your friends

Do you know somebody who has not yet been vaccinated? Tell them about Open Day, and why not help by driving them to the vaccination centre where you live?

Drop-in time: 10.00-14.00, Saturday 20 November

Our vaccination centres are in all 14 municipalities. You can also find them on 1177.se, with a map and directions. There you can also read more about covid-19 and vaccination. For more information: norrbotten.se, 1177.se
